Louisiana
Massachusetts (SB 1905 passed Senate and House Committees in August 2011 (new casino licenses required to have smokefree casino facilities)
New Jersey (Atlantic City's casino gaming floors and simulcast facilities are exempt under 2006 NJ Smoke-Free Air Act)
Texas (bingo and racetracks; no nontribal casinos in Texas)

****Tribal/First Nations casinos not included.**

CASINOS BUYING/BRANDING SMOKEFREE CASINOS ACROSS THE GLOBE

Casinos operators, with ownership interests in Atlantic City's casinos, have recently purchased casinos that are smokefree by law. Harrah's owns four casinos in Atlantic City: Harrah's Marina, Bally's, Showboat and Caesars. In December 2006, **Harrah's purchased London Clubs International in the United Kingdom**, which operates seven casinos in the UK, and is securing four new casino licenses under development in the UK. **UK casinos are smokefree by law, since July 1, 2007.**

In early 2007, **Harrah's decided to extend its Caesar's brand to the Canadian Ontario Windsor casino.** The Ontario Windsor casino is 100% smokefree since May 2006, per Ontario law. Harrah's also voluntarily made their Bill's casino in Lake Tahoe, Nevada, 100% smokefree, earlier this year.

Boyd Gaming owns a majority interest in the Borgata, in Atlantic City. Earlier this year, **Boyd Gaming purchased Dania Jai Alai, in Dania Beach, Florida**, which is one of four pari-mutuel facilities approved under Florida law to operate 1,500 Class III slot machines. The Company plans to begin construction at the property later this year, with a casino grand opening at the end of 2008. Florida law requires gaming establishments to be smokefree.

CASINO OPERATORS ADAPT TO 100% SMOKEFREE CASINOS LAWS

The oldest operating casino in the world is the Casino di Venezia, in Venice, Italy. It is 100% smokefree by law, and has recently completed an expansion.

A July 24, 2007 news story reported that Harrah's Metropolis casino in Illinois (USA) is making plans to build outdoor areas for smokers, to comply with Illinois' smokefree air law, effective January 1, 2008. Mike Rich, the General Manager, stated that "It won't have true walls but it will be enclosed so if it's raining you won't get rained on." Mr. Rich also stated, "It will absolutely be a positive for those players who are non-smokers who want a less smoke filled environment."

Harrah's also operates the Conrad Punta del Este casino in Uruguay, which became 100% smokefree, by law, in March 2006.

The Borgata Casino in Atlantic City, NJ plans to forgo building smoking-only lounges as permitted by local ordinance, and will provide a 100% smokefree casino gaming floor, starting October 15, 2008.

CASINOS GO SMOKEFREE VOLUNTARILY

For almost a decade, poker rooms, from coast-to-coast in the USA, are smokefree voluntarily. The trend started with the Las Vegas casinos, the Bellagio and Mirage, from customer demand. The first smokefree poker room in Atlantic City, New Jersey (USA) was at the Trump Taj Mahal. Its success resulted in other Atlantic City casinos making their poker rooms 100% smokefree (with the exception of

Bally's). Today, the bingo rooms are 100% smokefree in Atlantic City, by law. In addition to the poker rooms, all three off-track betting facilities in NJ, called Favorites, are 100% smokefree and successful. In fact, the Favorites in Freehold is partly owned by Penn National Gaming.

Tribal casinos go smokefree. The Blackfeet Reservation in Montana (USA) made its gaming facilities smokefree, as is The Lucky Bear Casino on the Hoopa Reservation in California (USA). Taos Mountain Casino in New Mexico (USA) is 100% smokefree, and its marketing director, Marc Kaplan, declared that marketing a smokefree casino is a joy and their customers are very enthusiastic about the policy. Kaplan also says that the casino, which has never allowed smoking, finds it easy to attract dealers.

Three of Montreal's casinos (Canada) went smokefree voluntarily, partly due to pregnant employee needs, except for a few smoking-only rooms with no gambling, food, or beverage service. In May 2006, Quebec provincial legislation required all public places, including casinos, to be smokefree.

New Zealand's biggest casino operator, Sky City Entertainment, voluntarily made more than 40% of its gaming areas smokefree, before being mandated by law, to be 100% smokefree in December 2004.

Grand Casino Kursaal in Bern, Switzerland offers three smokefree slot parlor rooms and an extended non-smoking area nearby. Their website states, "Following the general trend towards smoke-free entertainment, our table game area now includes non-smoking seats at the black jack, roulette and poker tables, and **we maintain a smoking ban for participants in tournaments.**"
